

# Do You Have a Child with Autism?

**Help international researchers discover genes that contribute to Autism. Participate in a UCLA study sponsored by the Simons Foundation Autism Research Initiative.**

## **Who can participate?**

- Families who have one child 4-17 years old with an autism spectrum disorder (ASD) or a suspected ASD and no other children with ASD

## **What is involved?**

- Questionnaires, interviews and gold-standard psychological assessments (including ADOS and ADI-R)
- Blood draw and short physical exam

## **Participants receive**

- Written summary of test results
- \$200 per family

**Participation in this study is strictly confidential and will not affect any services you may be receiving**

**For more information call  
UCLA at 310-267-CART**
